

## ALFRED LEE THAW ON WITNESS STAND

(Continued From First Page.)

sometimes to rap down the outbreaks of laughter.

Thaw's counsel sat quiet without protest while Mr. Jerome grilled the first witness for the defense. Thaw himself seemed to take but little interest in the cross-examination at the outset, but later began to take notes, and was often in heated conversation with those of his counsel who sat nearest him. At times Thaw could not altogether suppress the suggestion of a grin at the keenness of some of Mr. Jerome's questions and the subtle humor they so thinly concealed.

### Thaw Worries.

But before the close of the day Thaw seemed to worry. He bit his finger-nails and seemed anxious for the doctor's orders to end. His attorneys appeared a bit puzzled at first, but evidently determined to give the district attorney the widest liberty.

It was at the close of Mr. Jerome's cross-examination of Dr. Wiley that an attempt was made to introduce testimony tending to show the strain of insanity said to have existed in certain branches of the Thaw family.

### Richmond Witness.

Alfred Lee Thaw, forty-three years of age, a resident of Richmond, Va., was next called to the witness-stand.

"Are you related to the defendant, Harry K. Thaw?" asked Mr. Gleason.

"I am."

"What is the relation?"

"My father and his father were first cousins."

"When did your father die?"

"October 2, 1885."

"Where was your father, or have you any means of knowing where he was when he died?"

"I object," interrupted District Attorney Jerome. "The question is irrelevant and immaterial."

Justice Fitzgerald sustained Mr. Jerome's objection.

Mr. Gleason argued the point. He said it was intended to show a collateral condition of Thaw's relatives—the relative descended from a common ancestry. Alfred Lee Thaw is a man of piercing dark eyes. His forehead is contracted in a continual frown. His black mustache is closely trimmed and black hair brushed well back from the forehead.

### Ancestor Insane.

Mr. Gleason said he wanted to prove the hereditary phase of Thaw's insanity and could trace it back to a common ancestor with the witness's father. It was not necessary, or contemplated by the law that it should be proved a man's father or grandfather were insane to establish hereditary insanity.

District Attorney Jerome argued in reply that the witness was not a competent person to testify as to insanity in the family of the defendant. It was not necessary, he said, to go back to the great-grandfather and mother of the witness and the defendant to reach common blood. On the two collateral branches of the family four separate estates had been made, showing the birth of the witness and the defendant.

### Asylum No Proof.

"I infer from the opening address of the defense," said Mr. Jerome, "that they expect to prove by this witness that his father died in an asylum or was detained in an asylum like that conducted by the eminent Dr. Wiley, who was on the stand to-day, for witness, doubt not, prides he was a witness."

Justice Fitzgerald said he felt constrained to adhere to his decision sustaining the objection, and that he would not permit the witness to testify for the present. He would take the authorities cited by Thaw's counsel, under consideration. He thought a closer relative than the witness should be offered as a witness.

"Did you see your father in an asylum for the insane?" asked Mr. Gleason.

### Jerome Objects.

Mr. Jerome again objected to the question.

In the present condition of the record and at this stage of the trial, I sustain the objection," ruled Justice Fitzgerald. The witness was then excused for the day.

The defense next introduced as a witness Benjamin Boman, who testified that in 1904 he had a conversation with the defendant. He was about to tell what the conversation was, when Mr. Jerome interrupted, declaring a conversation so far back was not relevant or material. Justice Fitzgerald again called upon Thaw's attorneys for citations of authorities justifying the introduction of testimony of the character postposed.

"We did not expect to reach this witness to-day," said Mr. Jerome, "and I have not my authorities here."

### Again Objects.

Justice Fitzgerald sustained Mr. Jerome's objections, and the witness stepped aside.

Dr. Benjamin, of Pittsburgh, who has been a family physician of the Thaws for thirty years, took the stand and testified that he had known Harry Thaw ever since his infancy. He had treated him once for St. Vitus' dance. He seemed to be a lad of highly nervous temperament, and slept badly at night, said the witness.

Mr. Jerome's cross-examination was brief.

"How old was the defendant when he had St. Vitus' dance?" asked.

"Seven."

"That is all, doctor."

### Family Physician.

Mr. John F. Deemer, of Kittanning, Pa., the family physician of the Copleys, Mrs. William Thaw, the prisoner's mother, having been a Miss Copley, was the last witness of the day. He was called to testify as to the mental condition of John Ross, a cousin of Harry Thaw, when Mr. Jerome objected. Justice Fitzgerald held that until the defense's authorities on the introduction of testimony as to collateral insanity were presented, he thought it best to rule out all such testimony for the time being. It was at this point that adjournment until to-morrow was ordered.

The order for the exclusion of all witnesses, which on yesterday drove Harry Thaw from the court-room, remained in force to-day with the result that the second row of four chairs just back of the prisoner, which heretofore have been reserved for his family, had been turned over to those whose business gave them the privilege of attending the trial.

Josiah Thaw was the only member of

## SON OF THE MAN SHOT DOWN BY HARRY K. THAW

LAWRENCE GRANT WHITE,  
Son of Stanford White, the first witness called for the people by District Attorney Jerome in the Thaw murder trial.

### the defendant's family in court.

### Missed Wife's Smiles.

Harry Thaw, on entering, seemed to miss the smile of welcome which each morning in the past his wife has bestowed upon him as he entered the court-room.

It is apparent that the defendant depends on his wife to turn the tide for him.

It will be her wrongs, if there were any, which will impress the jury. Thaw believes she will show that any man placed in the circumstances where he found himself might have lost his mental balance and acted as he did. Upon the effect of her story, barring the whole of her past life, the prisoner's fate in large measure rests, though the day had been entrusted to John B. Gleason rather than to himself.

Dr. Charles C. Wiley, the Pittsburgh physician who testified for the defense, and who was sharply cross-examined by District Attorney Jerome, should not have been put on the stand to-day, Mr. Delmas said, and perhaps should not have been put on the stand at all.

"I expected to go on and conduct the case to-day," Mr. Delmas said, "but I was surprised that Mr. Gleason should have done it."

It had been rumored in the court-room that Thaw was to appear on Monday, and that he directed that Mr. Gleason should take charge of the case to-day.

## DISSENSION AMONG THE THAW COUNSEL

NEW YORK, February 5.—Scarcely had the court before whom Harry K. Thaw is being tried for the murder of Stanford White adjourned to-day when there was a conference of the defendant's counsel, and it became known that certain of the attorneys were not pleased with the day's developments.

Delphin Delmas, on leaving the court-room, declared flatly that he was dissatisfied with the day's proceedings, and intimated that he was surprised that the conduct of the defense, for the day had been entrusted to John B. Gleason rather than to himself.

Dr. Charles C. Wiley, the Pittsburgh physician who testified for the defense, and who was sharply cross-examined by District Attorney Jerome, should not have been put on the stand to-day, Mr. Delmas said, and perhaps should not have been put on the stand at all.

"I expected to go on and conduct the case to-day," Mr. Delmas said, "but I was surprised that Mr. Gleason should have done it."

It had been rumored in the court-room that Thaw was to appear on Monday, and that he directed that Mr. Gleason should take charge of the case to-day.

### Nothing Given Out.

Thaw's attorneys were closeted at Attorney McKelvey's office until late in the evening, and when the conference broke up nothing definite as to what transpired was made public.

When Mr. Delmas was asked what had been done at the conference the Californian replied:

"I can say nothing at the present time."

Mr. O'Reilly's reply was: "There was a conference, that's all. Nothing of importance happened."

Messrs. Hartridge and Gleason refused to discuss the matter.

After the lawyers had left, Mr. McKelvey remained for some time in his office. He said:

### Consults With Thaw.

"The lawyers for the defense held a conference, at which the plans were gone over. There was really nothing of importance done."

After the trial had adjourned Lawyer McKelvey visited Thaw in the Tombs. He talked with the prisoner for about fifteen minutes, and when he left he refused to make any statement. Later a note was sent to the prisoner, asking him if he reported that his lawyers had disagreed was true, and his reply was:

### Desired to Prove Insanity in Family.

Mr. A. Lee Thaw, who was called as a witness in the Thaw case in New York yesterday, but not allowed to answer questions asked by counsel for the defense, is a well-known Richmond man, and a member of the firm of Thaw, White & Grant. His father was a cousin of Harry K. Thaw's father, and was for some years before his death an inmate of the Eastern State Hospital. It was as to this fact that the defendant's counsel was questioning Mr. Thaw when the District Attorney interrupted objections, which the court sustained.

The condition of Mr. J. H. Mondy, who has been critically ill at his residence, No. 711 East Clay Street, remains unchanged.

Messrs. Amelia and Della Gregory, of Danbury, Conn., are visiting their niece, Mrs. William H. Smith, at No. 123 West Grace.

Miss Helen Neighor, of Danvers, Tex., is also the guest of Mrs. Smith.

## RICHMOND AGAIN COVERED BY SNOW

After Clear Day Fall Began  
Again Last  
Night.

### THE SUFFERING INCREASES

Continued Cold Imposing Many  
Hardships Upon Poor.  
Trains Delayed.

Richmond enjoyed a fine, bright, winter day over head yesterday, it proving to be a calm between storms. Underfoot the way of the pedestrian was hard and slippery in the shade, and in sunny spots soft and slushy.

The weather bureau announced "fair and continued cold" for last night and to-day, but soon after dark the skies were overcast, and by 11 o'clock a fine, icy snow was falling, driven by a west wind, which bids fair to pile it into drifts, if the precipitation is kept up through the day. By midnight last night nearly an inch of fresh snow was piled to that already on the ground, and the street car people were renewing their fight to keep open their lines.

### Work Among Poor.

The charitable organizations were kept busy during the day, with phone and personal calls. A good supply of clothes came to the Associated Charities as a result of the notice in yesterday's paper, and an indigent shoemaker has been given employment repairing the second-hand shoes that were sent in for distribution. The supply was rapidly issued, however, and as a result of the additional snowfall last night more calls for shoes and fuel will come to-day.

Fireless homes, threadbare clothes and empty cupboards are facing many people in the poorer quarters, and as the spell continues it will become more and more incumbent on people who are able to come forward with clothes, fuel, groceries and money, which can be best distributed through the organized charities.

All day yesterday the more prosperous streets were merrily with the jingle of sleigh bells, and the cheerful calls of children's voices were heard wherever a child-sled offered an opportunity for a coast. Superintendant Coughlin of the Street Closing Department, worked his force under difficulties yesterday, the sleety snow caking so that in many cases picks had to be used in order to move it. The snow was hauled away from the financial section of the city early in the day, and efforts were made to flush the streets with fire hose wherever the culverts were blocked with slush.

### Trains Delayed.

The snowfall has been general, extending some distance to the south, and for the past two days railway and mail service has been considerably delayed. Conditions improved during the day, however, and by night all the roads reported being very near to schedule time, except on through trains from the far south.

## 10 INCHES OF SNOW FELL IN NEW YORK

Suicide's Body Discovered by  
Street-Cleaners Under  
Snow.

NEW YORK, February 5.—Ten inches of snow fell last night and to-day in New York and vicinity, equalling the record for twenty-four hours. The railroads suffered severely in demoralization of traffic, and late to-day the situation had not materially improved. The cross-town car lines were tied up completely and the elevated roads were badly hampered. As a consequence the subways, which are not affected by surface conditions, were more largely patronized than usual.

The second section of Pennsylvania train, No. 88, from the South, which was due at 7 o'clock this evening, did not reach Jersey City at that hour, and was not expected for several hours. Through trains were on an average three hours behind.

Mrs. William Hirsch, a sister of Mr. Thaw, who was subject to epilepsy all her life. Miss Harriet Thaw, who is still living in confinement in the East, is considered by the family to be insane. Whether she was insane from the beginning of her life or whether she was driven insane by grief is a question.

Some years ago Miss Thaw was found living in a cellar in Philadelphia starving. The late William Thaw had left her some money, but she had squandered it.

Stories alleging Harry Thaw's mental peculiarities continue to be circulated. It was told this afternoon that some years ago his mother thought seriously of having Harry confined because of his attitude toward her.

One of his alleged forms of reticence was to burn money when he took issue with him on any subject. They tell the story that on one occasion, some years ago, when there was a house party at the Thaw residence, her son and Mrs. William Thaw had a disagreement, and Harry began to smoke cigarettes in the drawing-room, lighting them with \$5 bills.

### MUCH INSANITY IN THAW FAMILY

[Special to The Times-Dispatch.]  
PITTSBURGH, PENN., February 5.—It comes out here that there was insanity on the fathers side of Harry K. Thaw as well as on that of his mother. Two sisters of the late William Thaw have been considered insane. One is dead; the other is confined in an institution near Philadelphia.

Mrs. William Hirsch, a sister of Mr. Thaw, who was subject to epilepsy all her life. Miss Harriet Thaw, who is still living in confinement in the East, is considered by the family to be insane. Whether she was insane from the beginning of her life or whether she was driven insane by grief is a question.

Some years ago Miss Thaw was found living in a cellar in Philadelphia starving. The late William Thaw had left her some money, but she had squandered it.

### A Reasonable Plea For The Stomach

If Your Stomach Is Lacking in Digestive Power, Why Not Help The Stomach Do Its Work—Especially When It Costs Nothing to Try?

Not with drugs, but with a reinforcement of digestive agents, such as are found in the human stomach. Scientific analysis shows that digestion requires pepsin, nitrogenous ferments, and a small amount of hydrochloric acid. When your food fails to digest, it is to be expected that some of these agents are lacking in your digestive apparatus.

Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digestion, and when placed at work in the weak stomach, and small intestine, supply what these organs need. They stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.

Stuart's Dyspepsia Tablets have been subjected to critical chemical tests at home and abroad, and are found to contain the exact amount of food for the purpose for which they are intended. (Signed) John B. Brooke, F. I. C., F. C. S.

There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 medical physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water brash, insomnia, loss of appetite, melancholia, constipation, dysentery and kindred diseases originating from improper digestion.

Stuart's Dyspepsia Tablets are at once a safe and a powerful remedy, and a grain of these tablets being strong enough (by test) to digest 3,000 grains of meat, and to digest 10,000 grains of vegetable matter, and to digest 10,000 grains of food for you when your stomach can't.

Ask your druggist for a free trial sample package and you will be surprised at the results. B. A. Stuart, Co., 11 Stuart Bldg., Marshall Mich.

### WILL SPRING BIG SURPRISE

NEW YORK, February 5.—When the trial of Harry K. Thaw was resumed to-day, it was declared that a surprise was in store for the defense. Mr. L. P. Lepley, manager of the "New York Herald," who was on the stand of the witness, declared that when Stanford White was shot, Lawrence H. White was in the room. He said that he saw it taken from White's pocket after White was dead.

That Lawrence is to be played as a trump card was indicated by the questions of Lawyer Delmas in the cross-examination of witnesses for the prosecution. He asked the witness if he saw the tragedy if he were in a position to see the left hand of White as Thaw approached and shot him.

### RICHMOND WITNESS.

Mr. A. Lee Thaw, who was called as a witness in the Thaw case in New York yesterday, but not allowed to answer questions asked by counsel for the defense, is a well-known Richmond man, and a member of the firm of Thaw, White & Grant. His father was a cousin of Harry K. Thaw's father, and was for some years before his death an inmate of the Eastern State Hospital. It was as to this fact that the defendant's counsel was questioning Mr. Thaw when the District Attorney interrupted objections, which the court sustained.

The condition of Mr. J. H. Mondy, who has been critically ill at his residence, No. 711 East Clay Street, remains unchanged.

Messrs. Amelia and Della Gregory, of Danbury, Conn., are visiting their niece, Mrs. William H. Smith, at No. 123 West Grace.

Miss Helen Neighor, of Danvers, Tex., is also the guest of Mrs. Smith.

the storm last night. There was a bullet wound in the temple and by the man's side was a revolver with one chamber empty. In the dead man's pocket was found a note in a woman's handwriting, addressed to Walter Phillips, requesting the recipient to meet her at the corner of Seventy-second Street and Fifth Avenue at 7:45 o'clock last evening. The dead man is believed to have been Walter Phillips, an insurance broker, employed by the New York Telephone Company.

## GREAT BLIZZARD. Three and Four Feet of Snow in Pennsylvania.

PHILADELPHIA, Pa., February 5.—The snow, which began in this vicinity early Monday, developed into a genuine blizzard, the worst since February, 1899. More than twelve inches of snow has fallen, and the high wind has drifted it in places to a depth of three or four feet. The storm has seriously interfered with all kinds of transportation. In many parts of the surrounding country the snow drifted so badly that no attempt was made to run trains on the schedules, and consequently many were abandoned.

Because of the heavy weather, navigation on the Delaware River, with the exception of ferry-boats, is practically at a standstill. A number of vessels bound to or from coast or European ports are storm-bound in the river between here and the sea.

Reports from Eastern Pennsylvania, Delaware and Southern New Jersey are to the effect that the storm is the worst in eight years.

HEAVIEST OF WINTER.  
Snow Drifts Cause Wreck on  
New Haven and Hartford.  
BOSTON, February 5.—The traffic of Greater Boston was seriously hampered by the storm, which developed last night, bringing with it the heaviest snowfall of the winter. The snow made rapidly and was caught up by the northeast wind into troublesome drifts. The first accident of the day to be reported was on the Providence division of the New York, New Haven and Hartford Railroad, in the South Station, in which about a dozen men and women were shaken up and bruised, but none, according to first reports, was seriously injured.

## STORM SENDS TWO SHIPS ON THE SHORE

BALTIMORE, MD., February 5.—The Norwegian steamer Joseph D. Giorgio, from Port Antonio, Jamaica, for Baltimore, with a cargo of bananas, went ashore at Smith's Point, Chesapeake Bay, during the storm last night. The D. Giorgio is chartered by the Atlantic Fruit Company. Smith's Point is not regarded as a dangerous position.

The schooner Tena A. Cotton, loaded with tiling, which grounded off Ocean, Md., yesterday, is breaking up, and the cargo will be a total loss.

## Bitterly Cold in Tennessee. Advices from Middle Tennessee report a deep snow, followed by bitter cold weather.

## BELOW ZERO.

Terrific Blizzard in West—Traffic  
All Blocked.  
ST. PAUL, MINN., February 5.—With few exceptions there has been below zero weather in this section for seventeen days, and for three days thermometers have registered 22 degrees below zero.

In North Dakota, 30 degrees below was common, and this was coupled with terrific blizzards. For days the main lines of the Minneapolis, St. Paul and Sault Ste. Marie, the Great Northern and the Northern Pacific Railroads have been blocked, and many of the branch lines have been closed for weeks and months. There have been reports of many persons freezing to death, but these have been denied from North Dakota sources.

## HEAVY SNOW-STORM.

Trains Are Five and Six Hours  
Late.  
CHICAGO, February 5.—The heaviest snow-storm of the winter commenced last night, and was still in force to-day. The Western railroads were badly delayed, the through trains from California arriving in this section four to six hours behind time, and on the shorter lines trains were from one to four hours late.

## CARS JUMP TRACK.

Southern Train From West Point  
Delayed Yesterday.  
"The train due here yesterday morning over the Southern Railway at 9:30 o'clock from West Point was about three hours late, the delay being caused by an accident two miles inside of Lester Manor. The track was in an exceedingly slippery condition, owing to the heavy fall of snow and sleet, the night before, and from the very start from West Point the train had been slow and halting."

At a point just inside of Lester Manor the baggage car jumped the track and was followed by the "Jim Crow," or passenger car, which was shaken up somewhat and many of them were not a little frightened, but all escaped without injury.

United States Marshal Morgan Treat, who was a passenger, jumped to terra firma as the train came to a halt. The baggage car and other cars were derailed and were got back on the track, and the train started on its way to Richmond.

## WORST OF WINTER.

Snows All Day at Smith's Cross  
Roads.  
[Special to The Times-Dispatch.]  
SMITH'S CROSS-ROADS, VA., February 5.—Yesterday was the coldest and most disagreeable day seen in this section this winter. Small particles of hail and snow commenced to fall in the early morning and continued to fall through the day with a lull in the late afternoon. This morning the ground is completely covered with hail and snow nearly six inches deep, and firm enough to prevent a horse from breaking through. Travel is very difficult, except rough-shod horses. Saturday was ground-hog day, and as the sun shone out clear and bright in this section, the old weather prophets all agree that the little animal has again entered his house to doze away the next forty days, and every winter will be a severe winter weather, and it yesterday was emblematic of the remainder of the time the small weather prophet will not be far wrong.

## ALL TRAINS DELAYED.

Snow Twelve Inches Deep at  
Winchester.  
[Special to The Times-Dispatch.]  
WINCHESTER, VA., February 5.—A storm that last night and this morning bore every appearance of a severe blizzard, has turned out to be the heaviest snowfall of the winter and
